CAREER PROFILE SUMMARY

As a highly motivated and experienced individual with a degree in Business IT and a Diploma in IT, I possess a diverse skillset that enables me to thrive in any IT environment.

EDUCATION

- **Bachelor of Business Information Technology**- Strathmore University. Jan 2013 to July 2016.
- **Diploma (Information Technology)**- Strathmore University. Jan 2007 to July 2009.

KEY SKILLS AND COMPETENCIES

- Designing and developing responsive, full-stack web applications using Next.js, React, PHP (Laravel), MySQL, and MongoDB.
- Applying CSS3 skills to design adaptive layouts, implement responsive designs, and style UI elements using modern CSS properties and selectors.
- Building interactive front-end components with React, including strong command of state and props management, component lifecycles, and performance optimization.
- Working with both relational (MySQL) and non-relational (MongoDB) databases:
 - MySQL – designing normalized schemas, write optimized queries, and manage structured datasets.
 - MongoDB – handle flexible, document-based data storage for applications requiring scalability and dynamic schema design.
- Integrating GraphQL APIs to enhance data querying efficiency by allowing clients to request exactly the data they need, unlike traditional REST APIs.
- Connecting and synchronizing data between MySQL, RESTful APIs, and front-end components for seamless, real-time communication.
- Managing codebases through Git repositories, ensuring version control, collaborative workflow, and deployment readiness.
- Optimizing websites for performance, SEO, and accessibility, ensuring consistency across browsers and devices.
- Deploying and maintaining web applications on Vercel and Render, ensuring security, reliability, and scalability.
- Collaborating with clients from concept to delivery—translating requirements into well-designed, functional web solutions aligned with their goals.

WordPress & CMS Development

- **Custom Theme & Plugin Development:** 3+ years of experience building high-performance WordPress sites using PHP, custom hooks, and filters to deliver direct-response marketing solutions.
- **Performance Optimization (Transients & Caching):** Optimizing database load using the WordPress Transients API, reducing server overhead by caching complex queries for real-time data visualization.
- **Advanced Database Integration:** Proficient in using wpdb to bridge WordPress with external MySQL databases (Laravel-based schemas), ensuring seamless data synchronization for signature tracking and lead generation.
- **Direct-Response Architecture:** Specialized in building high-converting components including Exit-Intent Popups, Sticky Mobile CTAs, and Dynamic Progress Bars using custom JavaScript and PHP snippets.
- **Analytics & Tracking:** Skilled in integrating GA4 Data Layer events into WordPress components to track custom user interactions (clicks, form submissions) for data-driven marketing decisions.

WORK HISTORY

Data Analyst

Sun Pharma Kenya – 2025

Duties and Responsibilities

- Collect, clean, and analyze product performance data for **Paliris, Ranferon, and Zeptide** to support business and field operations.
- Develop and maintain **Excel-based dashboards** and **Pivot Tables** to monitor sales trends, prescription volumes, and patient adherence rates.
- Use **SUMIFS, COUNTIFS, and IF formulas** to classify **new vs. existing prescribers**, dose cycles, and monthly performance trends.
- Track and analyze **PSR (Pharmacy Sales Representative) mileage logs** to verify field coverage, route efficiency, and reporting consistency.
- Calculate **HQ-level averages** and performance metrics to evaluate regional and individual PSR productivity.
- Compile and validate **monthly mileage summaries** to ensure accurate travel reimbursement and performance tracking.
- Analyze **patient dosing data** to determine due doses, ongoing treatment cycles, and next follow-up dates for Paliris patients.
- Coordinate with PSRs and field teams to reconcile prescription data and maintain data accuracy across all reports.
- Generate **data-driven insights** and visual summaries to support sales, marketing, and management decision-making.
- Prepare **weekly, monthly, and quarterly reports** highlighting prescriber trends, patient adherence levels, and growth opportunities.
- Ensure **data integrity, confidentiality, and compliance** in managing patient and prescriber

information.

- Provide **analytical support** for marketing initiatives by identifying underperforming territories and recommending data-based strategies for improvement.

Web Developer & Graphic Designer

Freelance 2020 - 2025

Duties and Responsibilities

- Design, develop, and maintain dynamic and responsive websites for individual and corporate clients.
- Build full-stack web applications using **Next.js**, **React**, **Node.js**, and **PHP (Laravel)** for robust front-end and back-end functionality.
- Manage **database integrations** using **MySQL** and **MongoDB**, ensuring data accuracy and efficient performance.
- Deploy and manage projects through **Git repositories**, ensuring version control, collaborative workflows, and streamlined updates.
- Utilize **Tailwind CSS** and modern UI design principles to deliver visually engaging, user-friendly interfaces.
- Implement and consume **RESTful APIs** to connect front-end interfaces with back-end services.
- Optimize websites for **SEO, speed, and responsiveness**, ensuring cross-browser and mobile compatibility.
- Collaborate with clients to gather requirements, design mockups, and deliver customized web solutions.
- Provide **ongoing maintenance, debugging, and feature updates** for existing web applications.
- Host and deploy projects on **Vercel**, **Render**, and other cloud platforms for reliable, scalable performance.

Census Enumerator

Kenya National Bureau of Standards; Aug2019-Sep2019

Duties and Responsibilities

- Conducting a comprehensive enumeration of all households and persons within their assigned areas during the census period.
- Recording all necessary data on census questionnaires, including household demographics, housing conditions, and socio-economic characteristics of the population.
- Providing necessary guidance and assistance to households during the enumeration process.
- Ensuring data quality by carefully reviewing all completed questionnaires for errors and inconsistencies before submitting them for processing.
- Reporting any challenges or issues encountered during the enumeration process to the relevant authorities for timely resolution.
- Conducting myself in a professional and ethical manner throughout the census enumeration period, upholding the integrity and credibility of the census exercise.

Key Achievements;

- Successfully completing the enumeration of all households and persons within their assigned areas during the census period.
- Maintained confidentiality and ensured that all data collected during the enumeration process was kept secure and protected from unauthorized access.
- Ensuring that all assigned tasks were completed within the designated time frame.
- Contributing to the successful completion of the national census, which is an important exercise for planning and development purposes.
- Being a part of a historic event that aimed to gather important demographic and socio-economic data for the country's development.

Web & Graphics Designer

SankalalTsolutions; 2014 -2019

Duties and Responsibilities

- Designing and developing creative and effective website layouts, graphics, and user interfaces.
- Creating and managing digital assets, including logos, icons, banners, and images for web and social media platforms.
- Staying up-to-date with design trends and new technologies to improve design skills and enhance the quality of work produced.
- Communicating and presenting design concepts and ideas to clients or team members, and incorporating feedback into final designs.
- Managing multiple projects simultaneously, prioritizing tasks, and meeting tight deadlines.
- Testing and troubleshooting website functionality and design to ensure a seamless user experience.

Key Achievements;

- Created visually appealing and effective website designs that enhance the user experience and contribute to increased traffic and conversions.
- Received positive feedback from clients or team members regarding design quality and effectiveness, indicating a job well done.
- Managing multiple projects simultaneously, prioritizing tasks, and meeting tight deadlines, while maintaining a high level of quality.
- Creating and maintaining style guides and design templates that ensure consistency in branding and messaging across all marketing channels.
